The Fourth Quarterly meeting for Clay City circuit was held at Jackson's Chapel last Saturday and Sunday. The Presiding Elder Bro. Southgate being preseat and preaching to the edification of all present.

There seems to be much dissatisfaction with some of the candidates for county offices nominated in the Republican primary. But if the Democrats only put up a few candidates and these to make a campaign of whiskey trickery and money with no attempt to remedy the present reckless expenditure of the people's money by our county officials we independents had better stay out of the fight.

See our line of Cook Stoves and Ranges. We can sell them cheaper than peddlers or mail order houses, and besides you can see just what you are buying, and know where to find us should anything be unsatisfactory with the stove or range. Hardwick & Co., Stanton, Ky.

KENTUCKY TO SHOW CORN.

M. C. Rankin, Commissioner in the Department of Agriculture, Labor and Statistics has been appointed Vice-President for Kentucky of the National Corn Association and announces that the State will make an exhibit at the National Corn Exposition in Omaha, December 6th to 18th.

Arrangements were made at a conference of Corn Association officials with Mr. Rankin in Frankfort this week and it is expected Kentucky grain will take a high place and win many of the prizes in the list worth \$50,000 which is offered at the show in Omaha. Mr. Rankin has one hundred or more boys in Kentucky growing corn from pure seed. They will show this in an exhibit to be held at the Kentucky State Fair grounds and then the best will go to the National show.

As is well known Kentucky stands high as a corn producing state when acreage is considered. It is the hope of Mr. Rankin and his co-workers to bring the average yield per acre up to among the best in the United States.

The hot prices at the hot weather sale at Mrs. Williams are making the goods move fast. If you are not getting your share of the bargains, it is your own fault.

J. F. Clark has gone to the Old Mason's Home at Shelbyville to stay. Mr. Clark is nice, clean and respectable old gentleman, well worthy to be honored by a home with the Masons. He was formerly one of Clay City's substantial citizens and his adversity in his declining years, has been of great regret to the people of this city. The home will say that they never had a more desirable inmate than J. F. Clark.

Work on Bridge Begins.

The highway bridge crossing the river at Waltersville which was swept away May 1st, by the big tide is being put in and will soon be ready for travel again. The bridge company claims they have done the best they could, taking the jobs in turn as they got them. The contract which they have to put in this bridge says it shall be completed not later than August 1st and it looks like they may get it done by that time. While out the bridge has caused great inconvenience to the traveling public but it is a circumstance which no one could help and for which no one is responsible.

Don't Want Dog Law Repealed.

At a meeting held in Louisville the Kentucky Live Stock Breeders' Association passed the following resolution: "That we reaffirm our faith in the Kentucky dog law, and ask our incoming Senators and Representatives to give it their support, and we further desire to call their attention to the fact that besides paying for the sheep that they have killed since the enactment of the law it has put \$183,000 into the public school fund of the State."

Mrs. J. C. Allen received a telephone message yesterday afternoon from Winchester stating that her brother, Grover Barnett, was very sick and telling her to come at once. She left on the afternoon train.

The people of Hazel Green are overjoyed with the prospects of extending the Mountain Central Railroad from Campton to their town. It would be a great thing for Hazel Green and we hope to see the road built.

Don't fail to have Dr. Hamman fix your teeth. Satisfaction guaranteed.

The money invested in one modern battleship would establish an experimental farm station in every state in the union, or build two \$40,000 labor temples in every state or build 1,000 miles of macadamized roads in one year. We think the country would be far better off with a few more good roads and a less number of battleships.

Country Rejoicing.

The whole country is now rejoicing over the fact that the new tariff bill is about to become a law and end the uncertainty which has been so harmful to business for the past several months.

The bill as it passed the Senate affords but very little relief to the people. The bill, however, has been very much improved in conference and affords a very small measure of relief.

However, there is one feature that deserves the greatest praise and that is the provision taxing the net incomes of corporations. The credit for this feature is due entirely to President Taft, whose honest and earnest endeavors to place a just share of the burdens of Government on the wealthy cannot be praised too highly.

The corporations are all mad as hornets, but they are beginning to realize that many people in this country, while disliking the principles of Socialism, increasing numbers of them are contending that it is better for the Government of the United States to own all property than for a few great corporations and individuals to own 95% of the property and thus practically own the people by dictating the salaries that shall be paid and also dictating the prices that they must pay for the necessities of life. Corporations are beginning to take notice more than ever before, and well they may.

A Democratic Wave.

Besides the national wave for Democracy, there is a local current blowing just as strong. Powell of course will go her usual strength Democratic. Breathitt is going Democratic, the Tenth Congressional district is going Democratic, and we are going to have a Democratic Congress next time, despite the desperate efforts of the trusts, and all the moneyed powers that be. The people are learning that the majority of the Republican leaders are for the rich to be made richer and the poor can go to—well wherever they can get.

Many persons in this district voted for John Langley expecting before this time to have turnpikes spread all over the district. John's pikes haven't yet shown up, and the people are becoming restless about the matter. John will probably explain the matter that it will take him another term in Congress to get the matter through, and this time probably he will tell them he is going to have the Government run free

automobiles along these pikes for all who vote for him. But the majority of the voters are up to John's tricks and when the smoke has cleared away some good Democrat will be sitting back in Congress, and John will be wondering how it was done. A Republican district in Colorado 16,000 strong elected last year Judge John Rucker a Democrat to Congress by 5,000 majority because the Republicans found out on their candidate what the voters have learned about John Langley—he was a deceptive egotist.

The common people of this country ought to feel jubilant over the great reduction on the necessities of life by the proposed Aldrich tariff bill. While it is true that bologna sausage, which is free under the Dingley bill, is to be taxed 25 per cent ad valorem, and the rate on unbleached cotton is raised 125 per cent and on bleached cotton 400 per cent, yet radium, this necessary article which heretofore has cost us \$2,470,924 per ounce, has been reduced until now, under the Aldrich "poor man's tariff bill," we will be able to buy all we want at only \$2,000,000 per ounce.—Olive Hill Times.

The laboring man today under Republican rule, works for the trusts every day they will let him and works one day for their party bosses. How many days do these friends (?) work for the laboring man?

We have a number of men's suits that will close out regardless of cost. Will sell them at the following prices, for cash only. \$17 00 suits for \$11 00, \$14 00 suits for \$9 00, \$12 50 suits for \$8 00. If you can use any of them you can not afford to miss this opportunity. Hardwick & Co., Stanton, Ky.

The readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Doctors gave her up and all remedies failed till Electric Bitters worked such wonders for her health." Old Swindling Game.

Swindlers are operating an old game in several States. A number of men enter town and deposit in bank a few good checks upon which they draw. About the time they have a solid footing in the community, they deposit a large certified check. The last deposit is generally made on Saturday morning, and the money to the extent of the check withdrawn Saturday at noon, when the paying teller is busiest. The crooks then have forty-eight hours start, as the news of the invalidity of the check is not received until Monday morning.

Afraid of Ghosts

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to its terrors it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the condition of the system gives it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or habit-forming drugs. All its ingredients printed on its outside wrapper. It is not a secret nostrum but a medicine of known composition and with a record of 40 years of cures. Accept no substitute—there is nothing "just as good." Ask your neighbors.

INDIVIDUAL FARMS

Will Be Given Unequalled Op-
portunities at the Great
Blue Grass Fair.

CONDITIONS FOR EXHIBITS

All Kentucky Farmers Eligible to En-
ter Extraordinary Competitive Ex-
hibit Under Simple Conditions Set
Out Below—Do Not Forget That En-
tries Close Monday, August 2.

In order to stimulate interest in im-
proved agriculture and to offer oppor-
tunity to show to the world the char-
acter of farm products grown in this
section, the Blue Grass Fair, to be held
at Lexington the week of August 9-14,
has framed conditions for the following
exhibit, which should be one of its
most attractive and beneficial features:
Exhibit of products from individual
farms, not less than six from appended
list to be shown, all to be grown by
exhibitor, \$100, divided into four pre-
miums—\$50, \$25, \$15, \$10.

From the following list the exhibitor
is to choose not less than six products
of his own farm to be shown, and it is
also understood that exhibitor may
show as many more than six as he may
desire:

Burley Tobacco—One plant of green
tobacco in pot or cut.
Hemp—Three-inch bundle.
Corn in Stalk—Six stalks.
Sorghum in Stalk—Six stalks.
Wheat in Straw—Two-inch bundle.
Oats in Straw—Two-inch bundle.
Rye in Straw—Two-inch bundle.
Barley in Straw—Two-inch bundle.
Alfalfa—Two-inch bundle.
Red Clover—Two-inch bundle.
Alsike—Two-inch bundle.
Crimson Clover—Two-inch bundle.
Soy Beans—Two-inch bundle.
Cow Peas—Two-inch bundle.
Blue Grass—Two-inch bundle.
Timothy—Two-inch bundle.
Orchard Grass—Two-inch bundle.
German millet—Two-inch bundle.
Potatoes—Selection of six, any
named variety.

The exhibits will be judged by points
on the following basis: Quality, 60
points; diversity and commercial
value, 25 points; arrangement, 15
points.

Where grains are exhibited in the
bundle, the judge will consider both
quality and quantity.

All samples of grains must be cor-
rectly named as to variety. Tags to
so designate them will be supplied by
the superintendent in charge.

Each exhibit must be arranged so as
not to occupy more than five feet of
wall space. It is suggested that all
exhibits of small grains, grasses and
legumes be attached to a board, as in
this way a much more effective display
can be secured.

In the case of tobacco it is suggested
that plants intended for exhibit be
grown in pots, though cut tobacco may
also be shown.

Where an exhibitor grows both
smooth and bearded wheat he may, if
he so desires, show a bundle of each
and have same count as two of the six
articles required to permit his exhibit.

The phrase, "two-inch bundle," used
to designate quantity to be shown,
means two inches in diameter where
tied.

All exhibits will be marked by num-
ber tags alone, and no names of ex-
hibitors shall in any case be attached
nor shall there be any designation
used whereby the identity of exhibitors
may be known until after awards are
made.

Exhibitors from any county in Ken-
tucky will be eligible to competition.

Entries close Monday, Aug. 2, at 6
o'clock p. m., and no entry will be ac-
cepted thereafter.

All exhibits must be placed not later
than 6 o'clock p. m., of Saturday, Aug.
7, and no exhibit that is not in place
and complete at that time shall be
eligible to compete.

Prof. H. Garman of the Kentucky
Experiment Station will act as judge.
Prof. George Roberts of the State
University of Kentucky, will be Super-
intendent in charge.

The standing committee for the de-
partment consists of Mr. C. E. Marvin,
chairman; Prof. C. W. Matthews, Dr.
S. H. Hailey, Prof. George Roberts,
Mr. George D. Karsner.

Though in no sense relating to this
exhibit or coming into competition for
any of the prizes offered, the manage-
ment of the Blue Grass Fair is grati-
fied to state that the Kentucky Experi-
ment Station will make a display at
the fair on the lower floor of the Floral
Hall, where this exhibit will be held.
The display will be taken princi-
pally from the department of Prof.
H. Garman, and will not only include
a number of samples of crops

grown on the Experiment Station
farm, but will also attempt to set forth
intelligibly the insect pests which are
a marked detriment to farm crops
grown in Central Kentucky and which
can be successfully combatted by
farmers who use improved methods
recommended by the Experiment Sta-
tion.

As in past years, the Blue Grass
Fair will continue both day and night
during the week of August 9th to 14th.
Each evening, beginning at 7:30, a
band concert will be given, the full
program of free acts will follow, and
all the large aggregation of shows will
be open.
